Summary

Informatics Engineering graduate from Universitas Binaniaga Indonesia with hands-on experience in Full-Stack Development, particularly backend engineering. Developed REST APIs and designed database schemas comprising 45+ tables for a hospital asset management system, while implementing RBAC and automated integration tests. Skilled in Node.js, TypeScript, Laravel, PHP, MySQL, and modern web application development, with experience building backend services and integrating application functionality.

Work Experience

Backend Developer Internship *Feb 2025 - Jul 2025*

RS UMMI *Bogor*

- Developed REST APIs for a Hospital Asset Management System backed by a database schema comprising 45+ tables, supporting end-to-end workflows for managing medical and non-medical assets across multiple hospital locations.
- Implemented authentication and Role-Based Access Control (RBAC) to enforce permissions and restrict access to authorized asset management operations.
- Designed and executed UAT scenarios and manual test cases covering positive and negative scenarios, validating system workflows and role-based permissions against documented expected results.
- Developed 434 automated test definitions to validate API functionality and business logic in the hospital asset management system.

Staff Warehouse Intern *Mar 2021 - May 2021*

Robinson Mart, Mall BTM *Bogor*

- Managed daily inventory operations, including stock receiving, storage, and processing, to maintain product availability on the sales floor.
- Processed product returns through a Warehouse Management System (WMS), maintaining accurate transaction records and reconciling stock levels to support inventory accuracy.
- Assisted in optimizing warehouse storage layouts to improve item-picking efficiency and maximize space utilization during daily warehouse operations.

Education

Bachelor of Informatics Engineering (GPA: 3.7/4.00) *Oct 2022 – Aug 2026*

Binaniaga Indonesia University *Bogor*

- Co-authored a published usability study on a web-based Islamic inheritance calculator as the third author, implementing the inheritance calculation logic. The website achieved a SUS score of 83.46 (Excellent) from 89 respondents.
- Contributed to the development of a web-based rafting booking platform by implementing several modules and creating its user manual. The software was officially recorded under Indonesian Copyright Registration No. 001074828.

Technical Skills

- Programming Languages: JavaScript, TypeScript, PHP, Go
- Frameworks & Libraries: Node.js, Express.js, Laravel, React, Next.js, Tailwind CSS
- Database: MySQL, PostgreSQL, Firestore
- Testing & Tools: Postman, Playwright, Automated Integration Testing, User Acceptance Testing, Git, GitHub, Docker

Courses & Certifications

- Javascript | Dicoding *Feb 2025*
- Backend Development | Dicoding *Apr 2025*
- Postman | Udemy *Oct 2026*
- CCNA: Introduction to Networks | Cisco Networking Academy *Sep 2025*
